ELSEVIER

Economics Letters 48 (1995) 469–471

economics letters

Category index of volume 49

A General Economics and Teaching

J.L. Ford, P.K. Pattanaik, and X. Wei, On measuring the value of life (A1) 223

C Mathematical and Quantitative Methods

S. Li, A unified framework for implementation and the revelation principle (C7) 335
K.G. Stewart, The functional equivalence of the *W*, *LR*, and *LM* statistics (C12)109
F. Cribari-Neto and S. Zarkos, Improved test statistics for multivariate regression (C12)113
W.J. Crowder, The dynamic effects of aggregate demand and supply disturbances: Another Look (C12)231
Q. Li and T. Stengos, A semi-parametric non-nested test in a dynamic panel data model (C14) 1
K. Lahiri and N. Mamingi, Testing for cointegration: Power versus frequency of observation – another view (C15)121
C. Orme, Simulated conditional moment tests (C15)239
D.B. Nelson, Vector attenuation bias in the classical errors-in-variables model (C20)345
A. Hecq, Unit root tests with level shift in the presence of GARCH (C22)125
I. Choi and B.S. Chung, Sampling frequency and the power of tests for a unit root: A simulation study (C22)131
T.T.-l. Chong, Partial parameter consistency in a misspecified structural change model (C22)351
C.D. Orme and T.R.L. Fry, Maximum likelihood estimation in binary data models using panel data under alternative distributional assumptions (C23)359
H.S. Lee and P.L. Siklos, A note on the critical values for the maximum likelihood (seasonal) cointegration tests (C32)137
D. Quah, Misinterpreting the dynamic effects of aggregate demand and supply disturbances (C32)247
M. Yang and R. Bewley, Moving average conditional heteroskedastic processes (C32)367
B.M. Balk, Approximating a cost-of-living index from demand functions: A retrospect (C43)147
T. Ogwang, The stochastic approach to price index numbers: An expository note (C43)373
E. Tzavalis and M.R. Wickens, The persistence in volatility of the US term premium 1970–1986 (C52)381
T.-H. Lee, Disequilibrium and uncertainty in cointegrated systems: Some empirical evidence (C53)157
J.H. Kagel, Cross-game learning: Experimental evidence from first-price and English common value auctions (C70)163
M. Haviv, Consecutive amalgamations and an axiomatization of the Shapley value (C71) 7
R.P. McAfee and M. Schwartz, The non-existence of pairwise-proof equilibrium (C72)251
J. Brandts and C.A. Holt, Limitations of dominance and forward induction: Experimental evidence (C72)391
L.M.B. Cabral, Conjectural variations as a reduced form (C72)397
J.S. Gans, Evolutionary selection of beliefs (C73) 13
J. Ma, An infinitely repeated rental model with incomplete information (C73)261

D Microeconomics

R.F. Bordley, Possible convexity of the indirect utility function due to nonlinear budget constraints (D0) 19
A. Creane, The value to a firm of its rival learning (D8) 171
L. Zhou, A characterization of demand functions that satisfy the weak axiom of revealed preference (D11)403
K. Basu, Stackelberg equilibrium in oligopoly: An explanation based on managerial incentives (D21)459
S.P. Jenkins, Did the middle class shrink during the 1980s?: UK evidence from kernel density estimates (D31)407
M. Currie and I. Kubin, Non-linearities and partial analysis (D40) 27

Elsevier Science S.A.

C.-K. Woo, R. Orans, B. Horii and P. Chow, Pareto-superior time-of-use rate option for industrial firms (D40)267
T.C.G. Fisher and J.D. Konieczny, The relative rigidity of oligopoly pricing (D43) 33
F.M. Menezes, On the optimality of Treasury Bill auctions (D44)273
T. Hens and A. Loeffler, Gross substitution in financial markets (D50) 39
Y. Sprumont, A note on strategyproofness in Edgeworth–Box economies (D70) 45
D. Alepuz and A. Urbano, A note on risk aversion and learning behavior (D83) 51
G. Chichilnisky, G. Heal and A. Beltratti, The Green Golden Rule (D90)175

E Macroeconomics and Monetary Economics

E.J. Bartelsman, Of empty boxes: Returns to scale revisited (E32) 59
S.C. Norrbin and K.L. Reffett, I(2) representations of US money demand (E41)415
L.G. Telser, Optimal denominations for coins and currency (E42)425
E. Cardia, The effects of fiscal policies in a general equilibrium model with nominal wage contracts (E62) 69

F International Economics

F. Sturzenegger, Endogenous learning and trade policy (F1) 429
N. Takezawa, Currency swaps and long-term covered interest parity (F31)181
C.K.Y. Leung, Does non-traded input necessarily deepen the international non-diversification puzzle I?: The one-good case (F41)281

G Financial Economics

K.V. Chow, K.C. Denning, S. Ferris and G. Noronha, Long-term and short-term price memory in the stock market (G10)287
S. Gordon, L. Samson and B. Carmichael, Finite-sample inferences about mean–standard deviation bounds for stochastic discount factors (G12)295
K. Lee and S. Ni, Systematic risk over various frequency bands: An empirical analysis of returns on size-ranked portfolios (G14) 77
N.H. Moore and S.W. Pruitt, The firm-size relation and stock market responses to post-1962 changes in Federal Reserve margin levels: Evidence from an exhaustive sample of exchange-listed firms (G28)301

H Public Economics

J. Zhang, Does unfunded social security also depress output growth? (H55)307
G.K. Turnbull, Biased tax price or grant expenditure elasticities (H72)187
D.T. Wills, Further implications of the reversion level in agenda-setter models (H72)435

J Labor and Demographic Economics

J. Zhang, Do men with higher wages marry earlier or later? (J12)193
L.E. Papke and J.M. Poterba, Survey evidence on employer match rates and employee saving behavior in 401(k) plans (J26)313
T.L. Idson, Team production effects on earnings (J31)197
M. Tcha, Altruism, household size and migration (J61)441
D.-H. Kim, Search costs and the quit rate (J63) 85
J.C. van Ours, An empirical note on employed and unemployed job search (J63)447
L.N. Christofides and C.J. McKenna, Unemployment insurance and moral hazard in employment (J65)205

L Industrial Organization

M. Peitz, Utility maximization in models of discrete choice (L10) 91
M.H.R. Stanley, S.V. Buldyrev, S. Havlin, R.N. Mantegna, M.A. Salinger and H.E. Stanley, Zipf plots and the size distribution of firms (L11)453
S.-S. Yi, Uncertain innovation and persistence of monopoly revisited (L12)319
S.-H. Lee and J.-C. Kim, Oligopolistic incentives for pollution control with nonzero conjectures (L51) 95
E.L. Lynk, Testing efficiency in intermediate regulated industries (L51)323

O Economic Development, Technological Change, and Growth

N.R. Kocherlakota and K.-M. Yi, Can convergence regressions distinguish between exogenous and endogenous growth models? (O4) 211
J. Ahmad and S. Harnhirun, Unit roots and cointegration in estimating causality between exports and economic growth: Empirical evidence from the ASEAN countries (O11)329
S. Lach, Patents and productivity growth at the industry level: A first look (O47)101

Q Agricultural and Natural Resource Economics

S. Farrow, The dual political economy of taxes and tradable permits (Q2) 217
